

WEATHERSTONE AIR, INC.

June 19, 2007

Subject: Letter of Recommendation Regarding Aircraft Services Group, Inc.

To Whom It May Concern:

Weatherstone Air, Inc. recently purchased a new OEM helicopter to replace our 1989 Sikorsky S76B. One of our requirements for the sale of our helicopter was to be able to lease it back immediately after the sale for our company's use until such time as our new helicopter enters service.

Realizing that our leaseback requirement would be a deterrent to most buyers, we solicited the aid of George Reenstra and his team at Aircraft Services Group, Inc. George was most helpful in assessing the current market for our helicopter and finding an ultimate buyer for the S76B. His knowledge of the worldwide market, and his willingness to meet our requirements was invaluable in getting a fair deal for Weatherstone Air, Inc.

It was a pleasure working with George, and I would not hesitate to enter into another sale or purchase from him in the future should such a need arise. I highly recommend anyone who has the need to buy or sell a helicopter anywhere in the world to contact Aircraft Services Group, Inc. You won't find a better place to shop.

Sincerely,

Ron Blanton
Director of Operations/Aviation Manager
